

Embedding Video in your Blackboard Course

1. In your Blackboard course, click on the Control Panel.
2. Select the Content Area where you want your video to be seen, such as Start Here or Course Documents.
3. From that page, select Add Item.
4. **1 - Content Information** - In the Subject field, type in the name of the video, such "Introduction Video" or "Welcome to the Course."
5. In the Message field, copy and paste the following code:

```
<embed  
src="http://www.s4.louisville.edu/ron/player.swf"  
width="480"  
height="370"  
bgcolor="undefined"  
allowscriptaccess="always"  
allowfullscreen="true"  
flashvars="file=Intro.flv&streamer=rtmp://flash.louisville.edu/sw602/_d  
efinst_&dock=false"  
>
```

6. Select the HTML button underneath the Message field. *
7. **2 - Content** (Optional but Recommended) - Attach a PDF document of the text of the video. Under Attach local file, click Browse... and navigate to the file on your computer. Under Name of Link to File, type "Text of Video."
8. **3 - Options** (Optional) - Restrict when the video would be available by choosing date and time restrictions.
9. **4 - Submit** - Click Submit.

* If there is no HTML button, then click on the My UofL tab. Under Tools, click Personal Information. Under Personal Information, click Set Visual Text Box Editor Options. Under 1 - Manage Visual Text Box Editor, click Unavailable. Click Submit. Click OK. Click on the My UofL tab and return to your course and start over. (You will not have to repeat this step again.)
